HARD DOWNING RIDING STRONG

Lawson and MacDonald Lose
Another Lap and Swede Is
Losing Out.

(Special to The Herald.)
New York, Dec. 12.—Downing and Downey, notwithstanding their frequent squirts, are still one lap behind the leaders in the six-day bicycle race. Lawson and MacDonald fell back another lap today and are now three laps behind Fogler and Moran and Fogler continue to hold their position. Downing and Downey are watching Downing and Downey closely for both are speedy and liable to steal a lap any time. Lawson is beginning to show the strain of his wild riding and it does not look as if he has sufficient strength to recover any lost ground. At 10 o'clock tonight Fogler and Downey collided during a sprint and Downey fell. The crowd hissed Fogler for knocking Downey over but Downey says the fall was an accident.
Madison Square Garden, New York, Dec. 12.—There was no change at night in the relative positions of the leaders in the six-day bicycle race. Rutt and Scott, Moran and Fogler continue to hold their positions, one lap ahead of the next five teams.
At 1 o'clock this morning the positions of the riders remained the same. The leaders had pedaled 1,362 miles, 8 laps. The record for the 24th hour is 1,365 miles, 2 laps. It was made by Miller and Walter in 1899.

Montana Man Won Because of Superior Punching Ability.

San Francisco, Dec. 12.—Stanley Ketchell of Butte, Mont., was given the decision over Joe Thomas of this city, at the end of twenty rounds of sensational and bloody fighting. A driving rain broke through the canvas-covered roof of Recreation park during the fight and both fighters and spectators were thoroughly drenched before the fight ended. Several thousand people witnessed the exhibition.

The count was at the moment discussing the effects of the American financial crisis on the European money centers.
The count, in the course of his speech, said that London is in the same plight as Berlin, being compelled continually to advance its bank rate against the American thirst for gold. Hence, he argued, it was untrue that the German bourse law contributed to making the Berlin security market more dependent upon the American money market than upon the European centers.
The Prussian minister of commerce, Herr Delbruck, in replying, admitted that the bourse law had a powerful effect in causing European financiers to operate on foreign stock exchanges, and that it had also increased dishonesty among German business people and had damaged Germany's business honor abroad. The law had so greatly damaged German exchanges, the minister said, that its revision cannot soon remedy the evils done.
